FILE INFORMATION

 **Collection:** Automation Restful-Booker

COLLECTION DESCRIPTION

Welcome to Restful-Booker!

Can you find all the bugs in this API?

Welcome to Restful-booker an API that you can use to learn more about API Testing or try out API testing tools against. Restful-booker is a **Create Read Update Delete** Web API that comes with authentication features and loaded with a bunch of bugs for you to explore.

Where is the API?

You can find the code for Restful-booker on GitHub here: <https://github.com/mwinteringham/restful-booker>

You can find a deployed instance at <https://restful-booker.herokuapp.com/>

The API comes pre-loaded with 10 records for you to work with **and resets itself every 10 minutes back to that default state**. It also comes with [detailed API documentation](#) to help get you started with your API testing straight away.
